Zava Group — Sustainability Disclosure (FY2024 extract)

About this extract

Reproduced from the Zava Group Annual Report FY2024 (pages 184-220). This extract is provided for benchmarking against FY2025 disclosure preparation. The full report and TCFD-aligned climate disclosure are available on https://zavagroup.com/investors/annual-report-fy2024.

1. Reporting frameworks applied

Framework	Coverage	Assurance	Status
GRI Standards 2021	Comprehensive option, 78 disclosures	Limited (ISAE 3000) — Tier 1 firm	Reported
IFRS S1 (general)	4 thematic pillars	Reasonable on 3 KPIs	Reported
IFRS S2 (climate)	Phase 1 — governance + strategy	Limited	Reported (phase 1)
TCFD	11 of 11 recommendations	Limited	Reported
Bursa MMLR Sustainability	13 of 13 indicators + 4 industry-specific	Limited	Reported
SASB — Diversified Financials	6 of 8 metrics	Self-asserted	Partially reported
CDP Climate Change	C-score (FY2023: B)	Independent	Submitted
CDP Water Security	C-score	Independent	Submitted

2. Headline metrics (FY2024 vs FY2023)

KPI	FY2023	FY2024	Change	Target FY2030
Scope 1 emissions (tCO2e)	184,200	178,400	-3.1%	120,000 (-35%)
Scope 2 emissions (tCO2e)	92,800	86,100	-7.2%	20,000 (-78%)
Scope 3 (selected categories) tCO2e	1,820,000	1,742,000	-4.3%	In modelling
Energy intensity (GJ/MYR M)	12.4	11.8	-4.8%	< 8.0
Renewable electricity %	14%	22%	+8 pp	50%
Lost-time injury frequency (per M hrs)	1.42	1.18	-16.9%	< 1.0
Women in leadership (Bands 1-3)	28%	31%	+3 pp	40%
Local procurement spend %	64%	68%	+4 pp	75%

3. Climate-related risks (TCFD-aligned)

• Physical — flooding: 14 sites flagged High exposure under 2030 RCP 8.5 scenario; resilience capex MYR 124M committed FY2025-2027.

• Physical — heat stress: 8 plantation estates; workforce productivity adjustment in 2050 base case (-4% labour hours).

• Transition — carbon pricing: MYR 50/tCO2e shadow price applied in capex decisions > MYR 100M.

• Transition — policy: Indonesia carbon tax 2025; modelling indicates MYR 38M annualised cost on current scope.

• Reputational — palm oil sustainability: zero deforestation commitment + RSPO 100% by FY2028.

4. Governance + assurance

Board Sustainability Committee — quarterly oversight, chaired by INED. Group CFO accountable for sustainability disclosure controls. Internal Audit annual review. External auditor limited assurance on 14 KPIs (signed off 18 March 2025).

5. Reflection on FY2024 disclosure

Areas the auditor flagged as requiring improvement for FY2025: (a) Scope 3 data quality on 8 of 14 categories (currently High variance); (b) climate scenario analysis quantification under IFRS S2 phase 2; (c) double-counting risk on group consolidation for renewable energy attribute certificates; (d) social KPI methodology for incidents requiring re-categorisation.

These are the primary scope items for FY2025 disclosure preparation now under way.
