

Transfer Pricing Master File — FY2025 (extract)

About this extract

This extract is the public-distribution version of the Zava Group FY2025 Transfer Pricing Master File prepared under BEPS Action 13 (OECD Three-Tiered Approach). The full Master File + Local Files are available on the Group Tax SharePoint and are restricted to authorised personnel. Date prepared: 28 February 2026. Tax authority: Inland Revenue Board of Malaysia (LHDN) + Direktorat Jenderal Pajak (DJP) Indonesia. Group Tax sponsor: Hadar Caspit (Group CFO).

1. Group structure overview

Zava Group operates 14 reportable business units across 8 ASEAN jurisdictions. The principal holding entity is Zava Holdings Sdn Bhd (Malaysia, KL). Five regional sub-holdings sit beneath the principal. Top 5 inter-company flows by value are listed in Section 3.

2. Functional analysis (FAR) — summary

Entity	Function	Asset	Risk	Characterisation
Zava Holdings (MY)	Strategic IP + brand	Marketing IP	Bears strategic + market risk	Principal
Zava Services (MY)	Group shared services	Limited	Low (cost-plus)	Routine services pro
Zava Treasury (SG)	Treasury hub	Funding + FX positions	Funding + FX risk	Limited-risk principa
Zava Niaga (ID)	Distribution	Limited	Inventory + market risk (limited)	Limited-risk distribut
Zava Tech (SG)	Software IP development	Routine technology	Limited routine risk	Contract R&D

3. Top 5 inter-company flows (FY2025)

Flow	From	To	Annual value	TP method
Royalty — brand	Zava Niaga (ID)	Zava Holdings (MY)	MYR 184M	CUP + benchmarking
Management services	Zava Holdings (MY)	12 group entities	MYR 92M	TNMM cost-plus 8%
Intra-group funding	Zava Treasury (SG)	8 group borrowers	MYR 6,420M (principal)	CUP + interest benchmarking
Distribution margin	Zava Holdings (MY)	Zava Niaga (ID)	MYR 2,800M (cost)	Resale-minus / TNMM
R&D services	Zava Tech (SG)	Zava Holdings (MY)	MYR 68M	TNMM cost-plus 7%

4. Arms-length result + benchmarking

- Cost-plus mark-ups (TNMM) — interquartile range 5% to 11%. Zava entities operate at 7-8%.
- Royalty rate — comparables in ASEAN-5 consumer brands range 2.5% to 5.0% of net sales. Zava applies 3.2%.
- Funding rate — benchmarked to issuer-rated bonds + 90bp arms-length margin.
- Distribution margin — net operating margin of 3.0% to 4.5% within the IQR; Zava Niaga (ID) operates at 3.8%.

5. Country-by-country reporting

Zava Group is in scope for OECD CbCR (group consolidated revenue > EUR 750M). CbCR is filed annually with LHDN (jurisdiction of ultimate parent). FY2024 filing made 20 November 2025. Notification to

other ASEAN tax authorities completed by 30 November 2025.

6. Open audit queries (FY2025)

- LHDN — refresh FAR analysis for 3 related-party flows post-acquisition of Apex Banking.
- DJP Indonesia — provide P3B treaty positions for 2 royalty flows (Zava Niaga).
- DJP Indonesia — service rendering substance test for management services charges; provide time-tracking samples.
- IRB MY — pricing methodology for one intangibles licence (specialty chemicals brand).
- Singapore IRAS — Pillar 2 GloBE rules effective FY2025; data prep for top-up calculation.

7. Risks + monitoring

Highest residual TP exposure relates to (a) royalty-based intangibles flows, where comparables data is sparse outside ASEAN, and (b) financing flows under the new Pillar 2 minimum tax framework. Group Tax monitors both quarterly with external advisor (Tier-1 firm). Provisioning for uncertain tax positions recorded at MYR 38M (FY2024) and reassessed at year-end.
